

AZURE MORTAL - THE END OF SOCIETY

A five man project Azure Mortal of Belgian **Dirk Swartenbroekx** (*Buscemi, Radical Slave*) is producing avant-garde electronic audio-experiments and writing low frequency music for art installations, expos, films and choreography. Dark ambient is maybe a good description for the Azure Mortal sound. Nurse With Wound, Throbbing Gristle, Ornette Coleman, Steve Reich and Five or Six are a huge inspiration. The first cd of Azure Mortal is released in march 2014 on the label of Radical Slave/Prova. The mini-album is titled 'The End of Society'. Azure Mortal made this cd as a soundtrack for the work of Artist Rudi Eurlings. In may 2014, A new Azure Mortal vinyl single was released on Record Store Day 2014 by Wally's Groove World Record shop in Antwerp. '3 piano piece' is a minimalistic, repetitive composition which will be later used by artdance-group Lune.

The track was also compiled by *Gonzo Circus Magazine*. B-side is an edit of this old recording Dirk made in 1991 under the flag of TTF. 'The Conversation' is the perfect mix of intriguing early keyboards sounds and a dramatic dialogue tru phone between Humphrey Bogart and Lauren Bacall.
